

WHAT ARE THEY SAYING ABOUT ABG?

We have been working with Alliance Benefit Group since 1985. Alliance Benefit Group has grown with us and has helped us meet the increasing demands of the workplace. They have been with us every step of the way, and have helped us tremendously.”

Linda Osterday
Vice President of Human Resources
EZ Communications, Inc.

The reason we left our previous provider is very simple: They couldn't provide accurate and timely information on our account. We were very up front with Alliance Benefit Group about this concern and told them accuracy of reporting would be the criteria by which they would be measured. We have been very satisfied with their response to this challenge.”

Don Bowman
Vice president of Finance
AAA of Virginia

One of the most impressive elements about Alliance Benefit Group is how well they have gotten to know our business. They put themselves in our shoes. They find out what we need and then structure the plan accordingly. Alliance Benefit Group offers us a turnkey solution to our pension needs, and in an excellent manner . . . Their response time to any question we have has been outstanding.”

John Register
President
Technology Applications, Inc.

Probably their strongest asset is their communication skills, both with employees and with administrators. Regardless of a person's level of understanding, [Alliance Benefit Group] can communicate the value of the 401 (k) programs. They are always quick to answer and employee's question and whenever I have a question, their response to me has been excellent . . .”

Roland Hughey
Vice President of Finance
Southchem, Inc.
